

HELLO WORLD!!!

Welcome to my portfolio website! My name is Lujain Alattar. This website is a collection of my best work, showcasing my skills, experience, and creativity. Whether you're an employer, colleague, or simply curious about my work, I invite you to explore my portfolio and get to know me better.

About

I'm a web developer. I graduated from The World Islamic Sciences and Education University with a degree in Software Engineering and have been passionate about creating websites ever since.

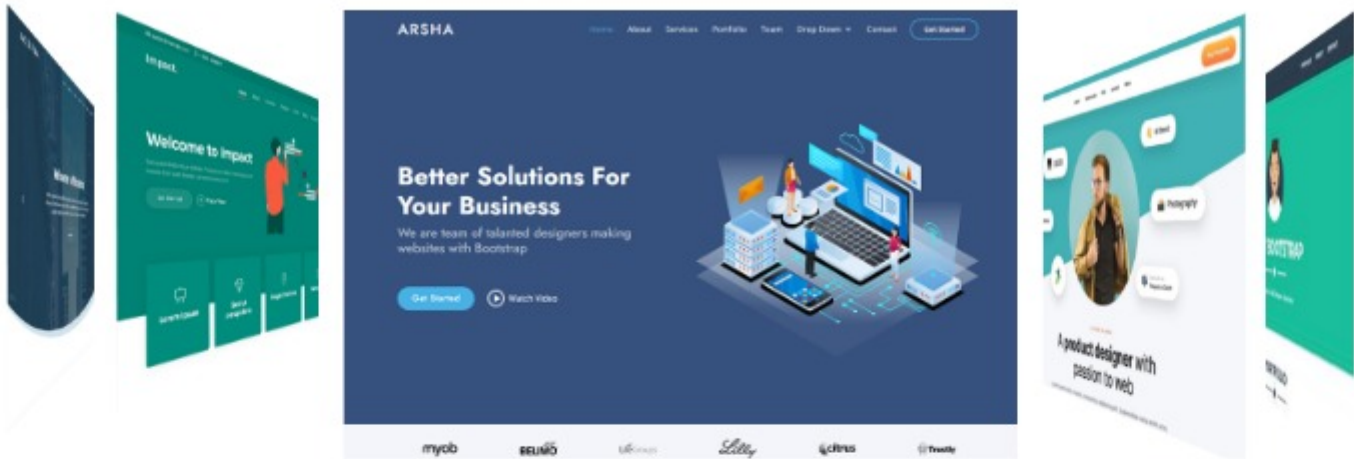

Skills & Certificates

I am specialized in developing custom websites using HTML, CSS, ...etc, and I'm always excited to take on new challenges and push the boundaries of what's possible.

Show

Services

Throughout my career, I have had the opportunity to work on a variety of projects for clients in different industries, ranging from small businesses to large corporations. In addition to my technical skills, I also have a strong eye for design and usability. I believe that a website should not only look great, but also be user-friendly and intuitive to navigate. I take pride in creating websites that are both visually appealing and easy to use

CERTIFICATES :

Front-end Developer

This certification demonstrates my proficiency in Front-end development, which is essential for delivering high-quality work in web development. Through this certification, I have gained a deeper understanding of HTML CSS and JavaScript, which has allowed me to deliver more effective and efficient solutions to my clients.

Back-end Developer

This certification showcases my proficiency in Back-end development, which is essential for delivering high-quality work in web development. Through this certification, I have gained a deeper understanding of PHP , which has allowed me to deliver more effective and efficient solutions to my clients.

Full-stack Developer

This certification demonstrates my proficiency in Full-stack development, which is essential for delivering high-quality work in web development. Through this certification, I have gained a deeper understanding of Front and Back end , which has allowed me to deliver more effective and efficient solutions to my clients.

Bachelor degree

I hold a Bachelor's degree in Software engineering, which has provided me with a strong foundation in computer skills. This degree has equipped me with the necessary skills and knowledge to excel in web development, and has been instrumental in shaping my professional journey.

SERVICES

Welcome to my Services page! As a full-stack developer, I offer a range of professional services to help businesses and individuals build scalable and secure applications. From front-end design to back-end development, I have the expertise to bring your vision to life.
